High-Quality CTE Programs

Model Policies

ALTERNATIVE TEACHER LICENSURE

With the acute shortage of qualified teachers, particularly in K-12 career and technical education (CTE) programs, the purpose of this model policy is to allow for the use of industry experts as permissible technical skills instructors for CTE courses. As a permissible instructor, the industry expert supports the teacher of record by supplementing and enhancing required instruction on advanced technical knowledge and skills.

This document contains a model policy to enhance student learning of relevant technical knowledge and skills through industry experts.

HIGH-QUALITY OCCUPATIONAL EDUCATOR PREPARATION PROGRAMS

This document contains a model policy to institute an ongoing review process that critically assesses and recommends policy and program enhancements to state-endorsed educator preparation programs for individuals entering the teaching profession as occupational licensed teachers.
